27th August 2013

Dear Sir or Madam,

Roll Lift bv were established in the Netherlands in October 2011.

We specialise in engineered lifting and the movement of heavy loads in accordance with customer and legal requirements.

In December 2011 we contacted QSP Solutions to request a quotation for consultancy and competent advice for the implementation of ISO9001:2008 within the organisation.

QSP Solutions helped us implement a Management System to ISO9001, which was certified to ISO9001 by LRQA Rotterdam in July 2012.

QSP Solutions are now our consultants for implementing and integrated Management System to meet the requirements of OHSAS18001:2007 and ISO14001:2004.

Roll Lift bv have no hesitations in recommending QSP Solutions to any organisation wishing to gain certification to ISO9001, ISO14001 and OHSAS18001.

Yours Faithfully

Mr. Darren Adams
Chief Commercial Officer
