21st November 2011

Dear Sir / Madam

QSP Solutions were the consultants contracted by Workwear Express in April 2007 in order to develop a Quality Management System to meet the requirements of ISO9001.

Workwear Express were certified to ISO9001 June 2007.

The management of Workwear Express, due to a number of factors including the goal of continual improvement and market pressure, decided to develop formalised Health and Safety and Environmental Management Systems within the company.

QSP Solutions were again the consultants used to develop these systems. We gained certification to OHSAS18001 in November 2008 and ISO14001 in January 2009.

Since then, QSP Solutions have continued to management and improve our ISO9001, ISO14001 and OHSAS18001 management systems.

If you want to gain certification to these International Standards, improve your quality, health and safety and environmental performance and satisfy your customer and legal requirements, we recommend that you use QSP Solutions.

Yours Faithfully

Mr. Andrew Ward
Managing Director
